Injection Systems

Center to Out Drag Hose Pattern

Tractor/Custom Spray Bar

Acurain Hose Reel

Custom Diesel Drive Unit

Just that simple and efficient...

...station the Acurain Hose Reel in the middle of the field and simply drag the hose back and forth until the farthest corner is reached. The simplicity is in the design and the efficiency is the quality of the equipment.

The Daritech Advantage

*Acurain Hard Hose Reel cart carries 1,300ft of 4.5" hose. Precise hose roll up guides eliminates the chance for hose tangles.

*Custom Splash Tool Bar is fabricated with heavy wall tubing to ensure quality through strength and durability.

*Custom Diesel Drive Units has only the best equipment. Massive GreenLine pressure pumps and efficient diesel drive units will ensure maximum flow output. Units are available with remote control radios and flow meters.

*Houle Lagoon Agi Pumps provide the superior performance and flexibility that is necessary to accommodate any lagoon size.

Quality through Strength and Durability
