

## Service Bulletin SB-0002

RE: 120 Gallon – 200 Gallon and Control Panel Pasteurizer Pumps

Date: 01/16/17

This Bulletin is to announce a change in heat exchanger water circulation pump manufacturer from Berkeley to Gould for all 120, 150 and 200 Gallon Pasteurizers as well as the Control Center Pasteurizers manufactured after this date. The High Capacity Control Center Pasteurizer is **not** included in this bulletin.

The pumps are not physically compatible for direct replacement on older model pasteurizers which will continue to use the original Berkeley pumps (DariTech # U317) as shown in the Parts Manual supplied at the time of purchase, which will continue to be supplied through DariTech.

120 Gallon Pasteurizers with a serial number of 94011 and above;

150 Gallon Pasteurizers with a serial number of 95005 and above;

200 Gallon Pasteurizers with a serial number of 96007 and above, and,

Control Center Pasteurizers with a serial number 97018 and above will all be equipped with the new Gould Pumps. (DariTech # Y546)
