

Quit paying for bedding, own it

By combining the age old science of composting with the knowledge and engineering of Daritech, your dairy will be able to say goodbye to sawdust and shavings, and hello to recycled manure as bedding for your cows. Not only that, you will be able to do so at a cost far lower than has been previously available in systems utilizing similar science. With the BeddingMaster, you won't have to purchase bedding anymore, you'll already own it.

BeddingMaster

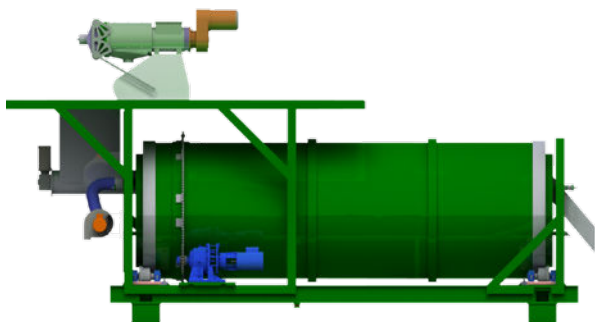

US Patent # 8, 728, 801

by Daritech

BeddingMaster Models and Features

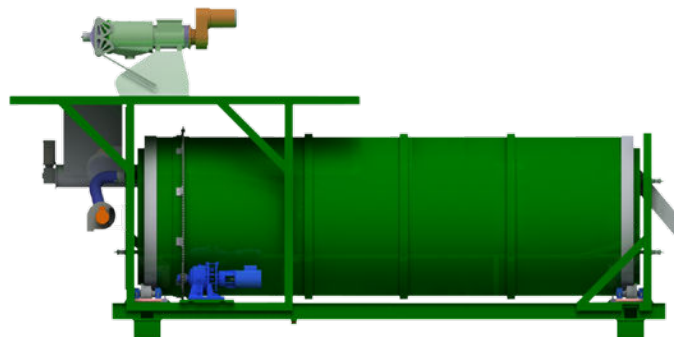

BeddingMaster 5-14

The 5-14 has the smallest footprint for dairies that bed up to **350 cows**.

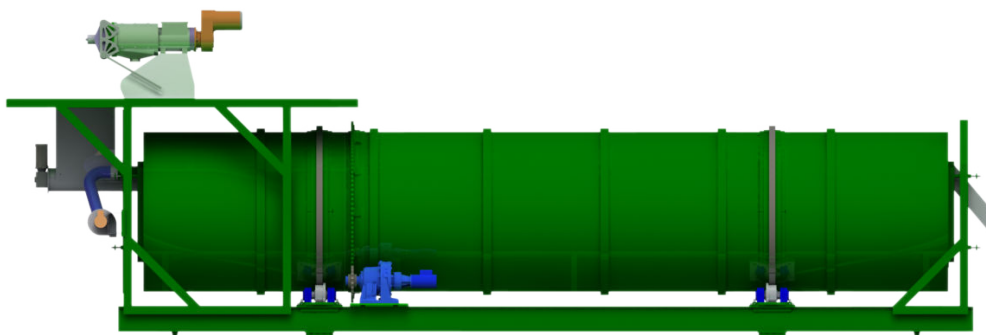

BeddingMaster 6-20

The 6-20 offers compact operation for dairies that bed up to **750 cows**.

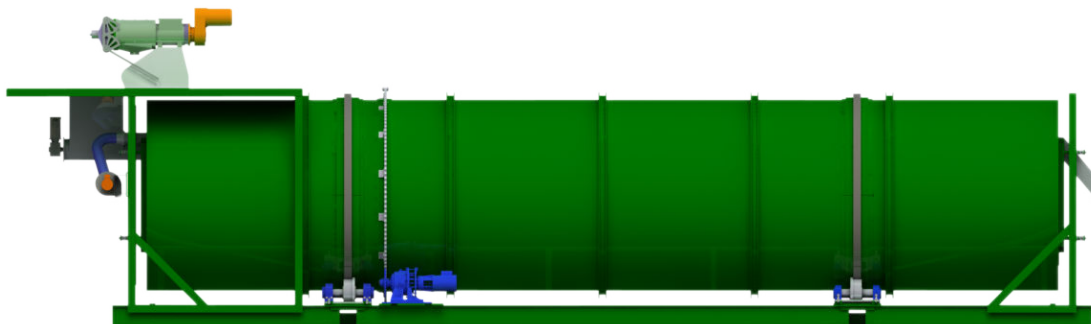

BeddingMaster 6-32

The 6-32 has the same great operation and will bed up to **1,200 cows**.

BeddingMaster 8-40

The 8-40, our largest BeddingMaster, can be set up to bed **over 3,000 cows**.

Double Separators:

Second separator is an available option to increase 8-40 BeddingMaster capacity.

Truck Delivery:

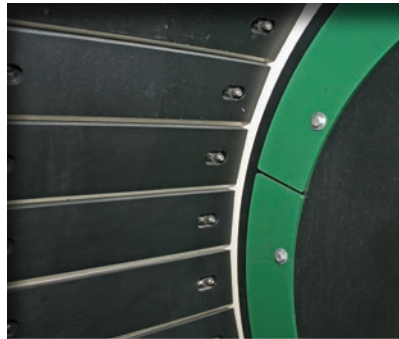

BeddingMasters can be delivered anywhere in North America.

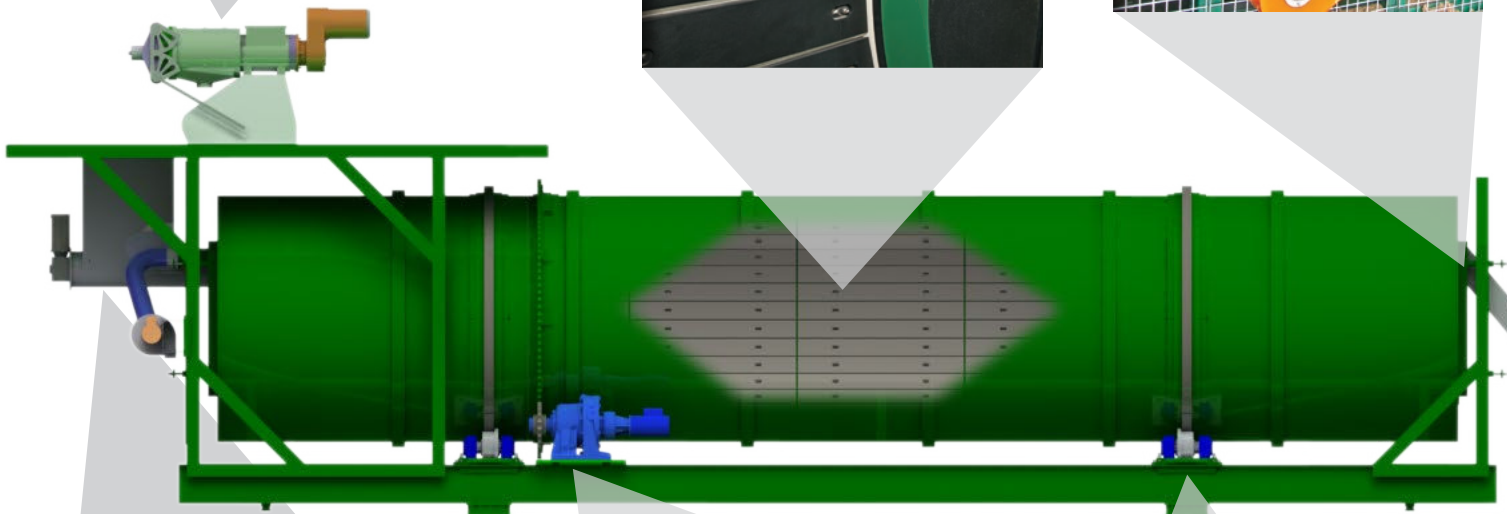

Separation & Automation:
Separator and control panel can be installed in a heated enclosure.

Insulation Boards:
Linear boards on the inside provide insulation, abrasion barrier, and host bacteria in spaces.

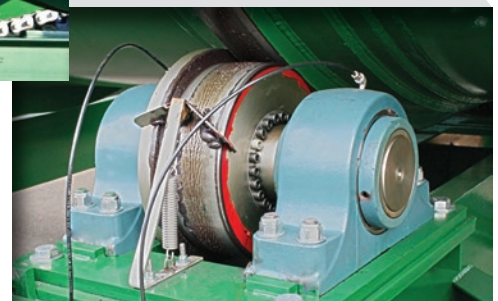

Exit Chute:
Continuous operation provides many options for conveyance of finished bedding.

Feed Auger:
Infeed auger supports continuous operation with uninterrupted air supply.

Motor and Wheels:
Heavy duty drive motor and idler wheels ensure longevity and trouble free operation.

*"We have been dealing with Daritech for years and have always appreciated the **hard work** and **quality** of equipment and workmanship. The BeddingMaster was no different. The quality of this bedding maker and the bedding itself is **the best** I've seen."*

*- Jeremy Visser
Natural Milk Dairies*

The BeddingMaster is built with excellent workmanship to ensure great performance for years to come, making it unsurpassed in the dairy industry. Coupled with our working knowledge of dairy's needs, Daritech's customized systems integrate into existing operations seamlessly.

BeddingMaster features:

- Proven composting technology
- Fixed ends provide greater capacity for better value
- Heavy rubberized industrial coating
- Internal boards protect vessel from heat fluctuations
- HDPE boards protect inside of vessel from wear
- Heavy duty drive system, idler wheels and bearings for longevity
